Professional Summary

Backend Developer with **3.2 years of experience** in designing, developing, and deploying scalable server-side applications using **Java, Spring Boot, and Microservices**. Proficient in building high-performance REST APIs, optimizing databases, and integrating CI/CD pipelines. Experienced with **cloud platforms (GCP/AWS)**, containerization, and Agile-based software development.

Technical Skills

Programming Languages: Java 8+, SQL

Frameworks: Spring Boot, Spring MVC, Hibernate, Microservices Architecture

API Development: RESTful APIs, Postman, JUnit

Databases: MySQL, PostgreSQL, SQL Query Optimization

Cloud & DevOps: Google Cloud Platform (GCP), AWS, Tekton, OpenShift, CI/CD, Docker

Version Control: Git, GitHub

Other Tools: SonarQube, Jasper Soft Studio

Professional Experience

Tech Mahindra *Software Engineer (Ford Project)*

Feb 2024 – Feb 2025

- Worked on **Ford Motor Company's backend modernization project** by migrating legacy applications from PCF to **Google Cloud Platform (GCP)**.
- Developed and enhanced **Spring Boot microservices** for secure data exchange between modules.
- Automated CI/CD pipelines using **Tekton** and managed deployments in **OpenShift**.
- Optimized PostgreSQL database queries, improving performance by 30%.
- Created API test suites in **Postman** and integrated automated testing with Jenkins.

Annaa Silicon Technology Pvt Ltd, Kumbakonam

Backend Developer

Mar 2022 – Nov 2023

- Built and deployed backend services using **Java, Spring Boot, and Hibernate**.
- Designed and implemented **RESTful APIs** for billing, accounting, and reporting modules.
- Improved API response times by 40% through optimized data access logic.
- Integrated **JasperSoft Studio** for generating real-time reports and dashboards.
- Collaborated with front-end teams and DevOps for continuous delivery in **AWS** environment.

We Fix Software Solution, Kumbakonam *Software Trainee*

Sep 2021 – Mar 2022

- Developed and maintained web applications using **Java, Spring Boot, and Hibernate**.
- Assisted in API testing and bug resolution to support client deliverables.

Project Highlights

Ford PCF to GCP Cloud Migration – Tech Mahindra

- Migrated microservices from **PCF to GCP** to improve scalability, resilience, and cost efficiency.
- Refactored codebase for containerization using **Docker** and integrated with Tekton pipelines.
- Ensured zero downtime deployments and high system availability.

Enterprise Data & Reporting Platform – Annaa Silicon Technology

- Developed backend modules using **Spring Boot** for billing and accounting operations.
- Integrated APIs with MySQL and improved report generation performance by 25%.

Education

Master of Computer Applications (MCA) – Govt. Arts & Science College, Kumbakonam

2019 – 2022

Scored 82% – Relevant coursework in **Process Design and Project Management**.

Bachelor of Computer Applications (BCA) – Sri Sankara Arts & Science College, Kumbakonam

2016 – 2019

Scored 72% – Relevant coursework in **Database Management Systems and Software Engineering**.

Additional Information

- Proficient in Agile methodology, code review, and cross-functional collaboration.
- Strong problem-solving, debugging, and communication skills.
- Immediate Joiner – Open to Backend Developer Opportunities.
